2022 IMPACT YEAR

**55 TRIBE MEMBERS
JOINED HANDS
TO
SAVE PLANET EARTH**

Genरू I 2022

340

Mangroves
planted

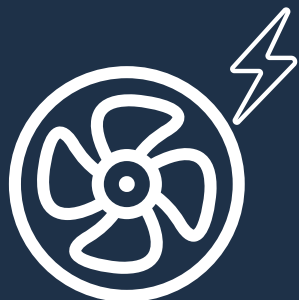

800

Trees
planted

₹91,000

Total fund pooled for
disaster relief.

13

replaced
conventional
ceiling fans to
BLDC energy
efficient fans

8

Youth climate
leaders
supported

1

Bicycle
donated for
training young
mothers

Let the stats speak about your impact!

₹1,80,000/-

Raised for climate mitigation and disaster relief efforts

₹ 68,000/-

corpus available for disaster relief efforts. An amount of ₹23,000 was used apart from this amount for relief activities.

8,51,175KG^{*}

of CO2 eq. reduction + sequestration efforts

***is equivalent to the size of 200 elephants  **
or travel emissions from driving 1,00,000/-km
on a car. 

UNITED NATIONS DECADE ON
**ECOSYSTEM
RESTORATION**
2021-2030

Impact how?

TREE PLANTING

Is an eco-restoration activity and helps sequester CO2

MANGROVE

helps restore wetlands, sequester carbon and act as breeding space for marine life

BAMBOO PLANTING

Bamboo provides livelihood to rural communities, and sequesters 5 times CO2 than a tree

BLDC FANS

Installing BLDC fans in school helps reduce energy use by 70%

DISASTER CORPUS

Every year across the world the number of natural disasters are on the rise. The corpus will help in supporting families impacted by disasters across India

**Tree,
bamboo,
and
mangrove
planting
done
across
Kerala.**

Let's change before it's too late!

Let's work together to build a large
tribe that can take responsibility in
making the planet a better place for
our future generations.
